Over the years, Nano faced barriers and experienced uncertainties. With courage in both hands, and trusting in God, she crossed oceans, moved mountains and set hearts on fire with the love of God. May we, too, be women and men of welcoming hearts, whose words and actions continue to speak the language of the heart each day.

**GLOBAL GOAL**

We, Presentation people, commit to respond to the cry of Earth and to people made poor by embracing the Sustainable Development Goals, providing us a plan of action for living the values of Nano’s life.

**CLEAN WATER & SANITATION**

Ensure availability and sustainable management of water and sanitation for all.

More than 2 billion people globally are living in countries with water stress. Basic water scarcity affects 40% of the global population, and nearly a billion people do not have access to that most basic of technologies: a toilet or latrine. Not only must we rectify this situation, but we must protect the ecosystems that provide the water in the first place.

Do we act with courage to ensure clean water and sanitation and do our part to bring about change?

**ENGAGE**

Nano’s evenings were spent bringing food and medicine, comfort and hope to those in need. With a lantern in hand, she would return home making her way among the dark, winding lanes.

**SERVE**

May we have the courage to leave the comforts of our lives and face our own dark, winding lanes.

**ACTION**

Walking in Nano’s footsteps, we are invited to show courage through small everyday activities that ripple beyond ourselves. Everything we do has a global effect.

- Take courageous steps to simplify your life.
- Learn how to read your water report to monitor your usage.
- Find ways to reduce water usage such as by taking shorter showers.
- Donate to a charity that provides clean water and sanitation to places that need it the most.
- Invest in a rain water barrel.
- Monitor your drinking water quality.
- Plant more trees.
- Encourage the restoration of wetlands that are giant filters.

The courage to see.
The courage to feel.
And the courage to act.
To live compassionately is to courageously see the connection between ourselves and those who suffer.

Not only do we see the connection and become aware of it, but we allow ourselves to feel it. Finally it is not just to see and feel the connection but to act on it, to courageously take responsibility for those who suffer.
